

Your voice. Your future.

SYP's 2026 Manifesto Consultation

1

How did we get here?

We carried out research and consultation to find out the main issues young people care about. MSYPs then reviewed these and drafted policies.

2

Where are we now?

We want to hear from as many young people as possible about issues covering five themes - education, services, sustainability, social justice and human rights.

3

What happens next?

We will review the data and create a youth-led manifesto with MSYPs before publishing it and influencing decision makers ahead of the next election.
